C. URBAN RENEWAL TECHNIQUES TO BE USED

1. Acquisition and Clearance

Conditions and reasons under which properties may be acquired and cleared are as follows:

- a. To remove buildings with major deficiencies which are substandard, warranting clearance.
- b. To remove buildings with minor deficiencies in order to effectively remove blighting influences which include the following:

1. Incompatible land uses or land use relationships.
  2. Overcrowding of structures on parcels.
  3. Obsolete buildings not suitable for conversions.
- 
- c. To provide adequate sites for development, in accordance with the stated design criteria, to meet the goals and objectives of the overall plans for the area.
  - d. To enable necessary public improvements to be made, in accordance with the overall plans for the area.
  - e. The real property to be acquired is shown on the Land Acquisition Plan (Map No. 2).

2. Rehabilitation

Only one structure in Blocks 1-5 is proposed to be rehabilitated under the plan - the Embassy Theater and attached building on the southeast corner of Harrison Street and Jefferson Boulevard. Rehabilitation shall be carried out in accord with all applicable codes and ordinances to the historic and architectural significance of the structure. Reuse of the attached former Indiana Hotel shall be encouraged which complements the functions of the Embassy Theater and other components of the civic center area.

In Block 6, 12 of the 20 structures are rated as substandard and are proposed to be rehabilitated. Moreover, those structures not in need of rehabilitation to bring them up to standard may be improved so as to facilitate coordination with the proposed Courtyards. In Block 8, the former Ayres building will be renovated for a combination of retail and office uses.

Other structures proposed to remain in the Project Area are either standard or are proposed for removal by their owners. The properties to be removed by action of the owners are parcels 5-2, 5-5, 5-6a, and 5-6b. Parcel 5-4 is standard and conforms to plan standards as is Parcel 5-1 which is newly constructed. It is the intent of this Plan for all structures in the Project Area to meet all applicable codes and ordinances of Fort Wayne.

### 3. Acquisition Policies

The Redevelopment Commission will follow the land Acquisition Procedure set forth in the Redevelopment of Cities and Towns Act of 1953 as amended and supplemented. This Act provides for the acquisition of land by the Redevelopment Commission through the exercise of the power of eminent domain should that be deemed necessary by the Commission.

4. Relocation Policies

All relocation benefits and services will be provided in accordance with the Uniform Relocation and Acquisition Policies Act of 1979.

5. Leasing

In order to facilitate implementation of actions which will meet the objectives of this Plan, the Redevelopment Commission may lease property it has acquired to private or public entities. The Redevelopment Commission will follow the procedures for leasing of real property described in Section 36-7-14-22 of the Indiana Code.

6. Acquisition of Easements

Where necessary to carry out this Plan, the Redevelopment Commission may acquire easements permitting the installation, relocation, or attachment of public utilities, or improvements on property which the Commission does not own.

7. Project Improvements

The provision of public improvements in the Project Area will be undertaken as required to accommodate new development and enhance the function and appearance of the Project Area. Such improvements will include, but not be limited to the following:

a. Relocation of Existing Utilities

Existing utilities (public and private) will be relocated when necessary to achieve project objectives. All utility relocation shall be underground, where feasible, or otherwise below pedestrian level.

b. New Utilities

When necessary to serve new or existing uses, new utilities will be provided. Any such new utilities shall be underground, where feasible, or otherwise below pedestrian levels.

c. Streets and Sidewalks

New sidewalks, street trees, and landscaped areas will be provided throughout the Project Area with particular emphasis on creating pedestrian amenities on Calhoun Street. Streets will be rebuilt or repaved as necessary.

d. Parking Garages

One or more parking garages will be provided to meet the needs of new and existing uses within the Project Area as well as new or existing uses adjacent to the Project Area. The size of the garage(s) will be based on present and future needs of all uses within the service area.

e. Parks, Plazas, and Pedestrian Bridges

Based on final plans for buildings within the Project Area, parks, and plazas will be developed to provide open space, areas for pedestrians to congregate, and appropriate settings for the various buildings. Development of second level pedestrian bridges will be encouraged to connect parking garages to buildings and buildings to each other within the civic center area and adjacent blocks.

f. Courtyards

In addition to the above improvements, implementation of the Courtyards may require creation of second level walkways over existing alleys, construction of a cover to enclose the alleys, provision of new or expanded entrance ways to the alleys, and other related improvements.

No use shall be permitted, which, when conducted under proper and adequate conditions and safeguards, will produce corrosive, toxic or noxious fumes, glare, electromagnetic disturbance, radiation, smoke, cinders, odors, obnoxious dust or waste, undue noise or vibration, or other objectionable features so as to be detrimental to the public health, safety or general welfare.

In addition, the following provisions will be included in the agreement:

- a. That the developer or redeveloper will submit to the Commission a plan and schedule for the proposed development or redevelopment.
